

FAILED COURSE CREDIT RECOVERY
Proof of Concept 0.1
From Concept to Practical to Experimental

By : Raghu Bayya

To predict the student's performance in the course, whether students could able to complete the course successful or not

Here we are not investigating the factors influence the student performance in the course. Based on the information we have, we perform prediction model and not being judgemental to student performance because number of other factors influence which cannot be measured.

Indicator identified : Student_Id, Age, Course_No, Announcement_view(No of times), Absent, Average, Course_Hr.

Additional conditions :

- Students must have a final course mark of 50 % or greater and less than 60%.
- Less than 30% of absences to his/her course

Output : 0 or 1
